

# DESIGN MODELLING SYMPOSIUM BERLIN

IMPACT: DESIGN WITH ALL SENSES

2019

## CALL FOR WORKSHOPS

The DMS organising committee solicits proposals for full-day workshops to be held in conjunction with the Design Modelling Conference at the University of the Arts Berlin in September 2019.

The purpose of a **workshop** is to provide an opportunity for **participants from academia or industry** to present and discuss novel ideas on current and emerging topics in digital design, simulation and fabrication of physical human spaces. The Workshops are scheduled for **21 – 22 September 2019**.

The workshops should **explore the role, design and critical reflection** of the computational model with **special focus** on simulation, fabrication, conception of complex systems, feedback and the integration and critical employment of external information into the design model. The workshops could explore specific scales ranging or the interlinking of material systems, buildings to cities and their ecologies.

The **format** should be hands on knowledge-and tool sharing. It can be software or hardware based, creating digital and/or physical prototypes. Results will be presented during the Conference as “work in progress showings” and in **exhibition**. We anticipate workshops will include between 10 and 20 participants from industry, research as well as architectural and engineering study programmes.

The workshop proposal should contain the following information:

- **Title** of workshop
- **Names, affiliations**, mailing address, e-mail address of the workshop organiser(s)
- Short **bios** of the workshop organiser(s) including **previous experience** in organising workshops
- A maximum of **three paragraphs** that describe the **topic** of the workshop, its **target audience** incl. pre-expected knowledge, and its **relevance** to DMS 2019
- Expected **format** of the workshop (panels, discussion sessions, poster sessions, invited talks, etc.)
- Tentative **programme sketch** for the workshop (2 days workshops of 8 hours each)
- A short **description** on how the workshop will be advertised
- Further **prerequisites**

DMS will support workshop organisers with travel and accommodation as well as the sourcing of workshop tools and materials.

*Workshop proposal dates:*

Workshop proposal submissions: **24 February 2019**

Workshop proposal notifications: **15 April 2019**

Please send your workshop proposal by email to [organisation@design-modelling-symposium.com](mailto:organisation@design-modelling-symposium.com).  
Thank you! We look forward to receiving your workshop proposal.
